GEITH RIPPER

► The Geith Ripper is designed to give an excavator powerful ripping ability in hard ground materials and the most demanding demolition applications

Features & Benefits:

- Select from our 7 models, suitable for excavators from 4 to 75t.
- Apply all the power of your excavator at one point for maximum ripping efficiency.
- Replaceable tooth and wear shroud (450 BHN) **a**
- Added side wear protection to extend life of ripper (for excavators bigger than 10 tons) **b**
- Extra thick steel shank for increased strength **c**
- Reinforcing gussets for added durability. **d**

Rip & Load:

- The coupler, bucket and ripper combination allows excavators to change from ripping to loading in less than 30 seconds
- Capital investment reduced - only one excavator is required to rip-and-load
