Introduction	3
Gradewell Promise to:	3

Introduction

The Gradewell Group recognises that the consumption of fossil fuels has a negative impact on the environment through emissions of greenhouse gases resulting in climate change and the depletion of non-renewable energy sources. We are committed to managing our use of energy as part of our commitment to sound environmental management and managing costs within the company.

Gradewell Promise to:

- Monitor fuel and electricity use and implement energy saving practices
- Up-date plant and equipment to improve operational efficiency
- Ensure plant and equipment is maintained and kept in good working order
- Ensure plant and equipment on site is switched off when not in use
- Up-date office systems and site accommodation to improve energy efficiency
- Ensure that office electrical appliances, IT and lighting is turned off when not being used
- Ensure heating and ventilation systems are set to operate at optimal efficiencies
- Continue to increase the proportion of our energy that comes from renewable sources
- Promote energy efficiency throughout our business

Thomas Barrett – Director
