Requirement

To load vehicles and trailers safely and within the legal limits.

Policy

The Company ensures that any vehicle and trailer loads are restrained so that they do not endanger the driver, any passengers or other road users. And all equipment, training and documentation is in place for safe cargo. To be included:

- Correct vehicle and trailer types for the items to be carried
- The items to be carried by each vehicle and trailer
- Safe loading and unloading practices
- Compliance with vehicle manufacturer's handbook and any supporting load documentation
- Safe coupling of trailers to towing vehicles

Where relevant, the vehicle manufacturer's handbook and any supporting load documentation must include:

- Vehicle weight limits
- Nature of the load items
- Load weight and dimensions
- Loading and unloading instructions
- Load distribution
- Load restraint system such partitioning, netting and roof racks

The correct equipment must be issued to maintain safe loads.

Documentation, records and data relevant to load safety must be:

- Documented and reviewed in accordance with requirement M1
- Retained in accordance with requirement M2
- Communicated in accordance with requirement M5
- Included in the health and safety policy in accordance with requirement M8
- Included in Professional Development Plans in accordance with requirement D4
